

Tool for Group. Use a steel pipe with outer diameter 62 and inner diameter 51. For the 3mm pins you can use old drills or Sellock Roll Pins. The 10mm hole is for a extension of a ratchet, so you can open the thread.

Tool for Glas. Use a steel pipe with outer diameter 50 and inner diameter 38. For the 3mm pins you can use old drills or Sellock Roll Pins. The 10mm hole is for a extension of a ratchet, so you can open the thread.
